Gaia Slim R

Gaia Slim R 400 22W/827-865

Ceiling light

Description of product family

A modern ceiling light with adjustable colour temperature between white and cool white (2700 K – 6500 K). Easy to install directly into a ceiling lamp socket or junction box using the included mounting kit. The Gaia Slim R ceiling light is an excellent choice for general lighting in dry indoor areas such as hallways, living rooms, bedrooms and kitchens.

Technical details

A ceiling light that is suitable for general lighting around the house (Ø 400 mm). The color temperature can be adjusted freely with the easy to use remote control (2700–6500 K). The light can also be dimmed. Body made from polycarbonate, acrylic opal dome (ACO), white. The light can be surface-mounted easily and connects to a lamp socket or terminal block on a wall or the ceiling; mounting kit included. The light comes with a lamp plug and hook for hanging. Non-replaceable LED 22 W 1 600 lm. IP20.
