

Arvika

Arvika IP44 E27 black

Wall luminaire

Description of product family

The traditional Arvika wall luminaire with its smooth steel body and large glass dome is brimming with nostalgia and brings to mind the yards of old. The Arvika is ideal for lighting facades, outdoor entrances and corridors. The model can be combined with the bollard and wall luminaires in the Kartano series. The bulb is very visible inside the Arvika lamp, which means that you can significantly affect the mood and luminosity by choosing the right bulb.

Technical details

Arvika wall lamp is great for illuminating facades and yard areas. The black steel frame and large clear glass globe create a nostalgic look. IP44. Not suitable for chaining. Your choice of bulb can have a significant effect on the atmosphere created by light fixtures. We recommend using an LED bulb with E27 base; bulb not included in the package.
