

Cio Multi

Raising Frame 217 mm WH

Decorative ring A decorative ring is available as an accessory for the Cio Multi range. It offers an easy and quick way to change the colour of the luminaire. The ring is available in black or chrome colour for all basic models (excluding the PIR model). The decorative ring is attached to the surface of an installed light. With the frame's magnet, you can attach the decorative ring quickly, seamlessly, and firmly in place. Raising Frame The Cio Multi raising frame permits the use of surface wiring in mounting of the luminaire. The frame has knock-outs on opposite sides, so the luminaires can be linked with connectors. The colour and surface texture match those of the luminaire, to ensure a neat appearance. Raising frames are available for all Cio Multi luminaires, including the PIR model. They are not suitable for use with decorative rings.
