

Sauna LED +60°C

LED A61 828 470lm E27 SAUNA OP

For hot operating environments

Description of product family

Sauna LED lamps are designed for environments with higher-than-normal temperatures. They can withstand ambient temperatures of up to 60 °C. Please note that the lamp must be installed low in the sauna, in luminaires mounted at a height below 1 metre. The lamp's technical specifications are clearly presented on the packaging. The colour temperature is warm white (2700 K or 2800 K).
