Dimmable clear-glass decorative lamp, warm light

Clear-glass LED filament lamps emitting very warm light (2200 K) are ideal for creating atmospheric lighting in the home. The beautiful glass lamps emit light also towards the base, making them suitable for luminaires where the lamp is installed base-up. These decorative lamps are visually striking even without a shade. The lamps can be dimmed with an LED dimmer. Dimmable models are marked with the DIM symbol on the packaging. Technical specifications are clearly presented on the packaging.
