

## 903lm 2000h

### Halogen burner multi-packs

Halogens with the G4 and GY6.35 sockets offer high light output based on a very small size. The bulbs are very small and popular in decorative luminaires that have multiple bulbs. Halogens are packed in blister packs, each with two bulbs. Old incandescent bulb dimmers may be used for dimming.

Clear halogen burner 12V 40W 3150K GY6.35 903lm 2000h 10 x 38 mm, 2 pcs in blister packing
