

3-Step-CCT

LED PO 822-840 370lm G9 3ST CCT

Bulbs with adjustable color temperature

Description of product family

3-Step-CCT bulbs are controlled using a standard wall switch – no separate dimmer or controller is required. By clicking the switch within three seconds, you can stepwise adjust the light's colour temperature (kelvin). As the colour of the light changes, the brightness (lumen output) also changes. The bulb first turns on at full output in cool white light (4000 K), the second switch press changes the light to white (3000 K) and reduces brightness, and the third press changes the light to warm white (2200 K) with further dimming – allowing you to easily adjust the atmosphere of your home to suit any situation. Memory function: when the bulb is switched off completely, the last light setting is retained. The G9 bulb does not have a memory function.

Technical details

Bulb-shaped 3-Step Dim series CCT LED lamp, dimmable with a standard switch, 3W. Color temperature options: warm white 2200 K at 20% light output / white 3000 K at 50% light output / cool white 4000 K at 100% light output. G9 base, 310 lm, lifetime approx. 15,000 h, size Ø16 × 49 mm, blister packaging. Frequency ~50/60 Hz. Good color rendering index CRI > 80. Continuous and even spectrum, no color distortion. No UV or IR radiation. Mercury-free. Three-year warranty.
