

Plug-in socket lamps

TC-S/E 11W/840 2G7 BX

For electronic ballast

Description of product family

Plug-in socket lamps are common in work and ceiling luminaires, for example. An electronic ballast transforms the supply voltage to suit the lamp. Compared to magnetic ballasts, the advantages of electronic ballasts are flicker-free light, better light efficiency, a longer lamp lifetime and higher energy efficiency. The products are packed in cardboard boxes that clearly present the product information. The colour temperatures are pure white and cool white (3000 K/4000 K).

Technical details

Fabric lighting cord with a Bakelite socket, color black. Surface-mounted onto the ceiling. Plastic cable sleeve. Cable H03VV-F, 2 x 0.75 mm², length 2 100 mm. The cable can be shortened to fit if necessary. For indoor use only. E27 socket, max. 60 W, bulbs sold separately.
