

## Smart Smoke alarm

### SMART SMOKE ALARM WIRELESS

#### Description of product family

The wireless Airam SmartHome smoke alarm functions like the normal optical smoke alarm, even without the SmartHome app. When detecting smoke, the smoke alarm alerts you loudly. If the device is connected to the Airam SmartHome app, you will also receive a notification on your phone. If your cooking sets off the smoke alarm, you can silence it by pressing the button on your unit. You cannot silence the smoke alarm using the app. You should install the smoke alarm as close to the middle of the ceiling as possible in every part of the home, including bedrooms, escape routes and staircases. Multiple SmartHome smoke alarms cannot be linked together.
