

Cabinet

CABINET PIR SENSOR LED LIGHT

Battery operated light with sensor

Description of product family

The elongated Cabinet PIR motion detector lamp turns on automatically when movement is detected. As the lamp is battery-powered, it can be used where mains electricity is not available, such as summer cottages, back corners of shelves, or wardrobes! The light and narrow battery-powered lamp can be easily secured with tape or screws wherever light is needed.

Technical details

Long-style Cabinet PIR motion sensor light, ideal for a cabin or areas without mains power. Detection angle: 60/120°, sensor range: 4 m. Stays on for 25 seconds after motion is detected. Light source: LED 80 lm, 3000 K. Automatic on/off function. Body material: ABS and polycarbonate (PC). For indoor use, IP20. Operates on 4 x AA 1.5 V batteries (not included). Battery life: approx. 24–30 h. Easy surface mounting with tape or screws; mounting accessories included.
