

Pink Ribbon vacuum jug

THERMOS FLASK 1.0L PINK RIBBON

Glass interior, 1 L

Description of product family

A vacuum jug with a plastic exterior and a glass interior. The advantage of a glass-lined jug is that it doesn't retain or transfer flavours to the drink. To prevent breakage, handle with care and follow the instructions for use. Its elegant design and soft pastel pink shade, inspired by the Pink Ribbon campaign, make it perfect even for a festive table setting! By purchasing a Pink Ribbon product, you support Finnish cancer research. Campaign products are available only in Finland.
