

## Oven and Refrigerator Lamp

P45 40W 350lm E14 OVEN LAMP

### Description of product family

The oven and refrigerator lamp is a special lamp designed to withstand both very high and very low temperatures. The lamp features a special base cement that allows operation at temperatures of up to 300 °C. The lamp is not suitable for general room lighting.

### Technical details

An easy-to-use safety timer that allows to control the supply of electricity from a socket outlet to an electrical device. Set the operating time by pressing the button on the timer. Each press adds 15 minutes of operating time up to a maximum of 75 minutes. The operating time is shown as lit blocks around the edge of the timer plug. The safe double-pole switch fully disconnects power to the electrical device connected to the timer. Great for irons and coffee makers, for example.
