

1000h BL

Halogen burner multi-packs

G9 230V halogens are particularly popular in retro-style downlights and ceiling lights. Halogens offer good ambient heat resistance and dimmability. The bulbs are packed in sturdy blister packs where the bulb is clearly visible. Old incandescent bulb dimmers may be used for dimming.

Clear halogen oven bulb 40W 2700K G9 490lm 1000h
10 x 42 mm, max 300 °C, blister packing.
