

Solar Panel for IP65 SmartHome Camera

SOLAR PANEL FOR SMART CAMERA

Description of product family

With Airam SmartHome products, you can enjoy peace of mind and enhanced security. Use the solar panel as a power source for the SmartHome camera (IP65) suitable for outdoor use. Connect the solar panel directly to the camera using the included USB cable. The camera's battery charges whenever the sun is shining! The panel comes with a fixed 3 m USB-C cable. The package also includes a Micro-USB adapter for use with cameras that have a corresponding port. The solar panel is an energy-efficient and durable solution to keep the camera running, for example, at a summer cottage. You can control the camera's features remotely via the Airam SmartHome app. This solar panel is an updated version that replaces product no. 9620099.
