

Nox

NOX 6 LEDS + SENSOR BATTERY LIGHT

Battery operated light with sensor

Description of product family

A handy battery-powered light with motion detector. This motion-activated light is great for wardrobes or kitchen cabinets. Convenient illumination for areas in the house or summer cottage where mains electricity is not available. The bright white light is close to daylight in tone 6000K.

Technical details

Nox is a compact battery-powered light with a motion sensor. Install it, for example, in a wardrobe or kitchen cabinet. Light source: 6 LEDs, 30 lm, 6000 K. Operates on 3 × AA batteries (not included). Automatic dusk sensor. Motion detector sensor: 90° angle, 3 m range. The light turns on for 25–40 seconds after motion is detected. Operating temperature: -5...+38 °C. Screw mounting.
