

IP44

+ TIMER

LED chains

The traditional and popular LED set now comes with a timer function. The adaptor (IP44) includes a button that can be used to adjust the timer. LEDs consume very little energy, but the timer can be used reduce that amount even further. The Elbe LED set is available in three different lengths: 3.6, 7.6, or 15.2 meters. The different options allow you to decorate any area ranging from small balconies to large yards. Warm yellow LEDs; the 3.6-meter version is also available with multi-colour LEDs. Non-replaceable LEDs, connected in series of 10 LEDs. Available with clear or dark cord.
