

SmartHome Remote

SMART REMOTE RGB/CCT/DIM WF

Description of product family

Products in the Airam SmartHome range connect to your home Wi-Fi network. The products are generally controlled with the SmartHome app on your phone, but you can also use the SmartHome remote to control the basic functions of your SmartHome lamps and light fixtures. The remote is an excellent option for controlling SmartHome lights for families with children or larger households! The remote allows you to control four different lighting groups separately.
