

## LED Strip 24V

### 24V IP20 4,8W/m 830 5m

#### Led strip

With an LED strip, you can create stylish highlights and indirect lighting. Attach the strip directly to a clean surface using the 3M adhesive backing. The thin, low-profile strip is easy to install even in small or narrow spaces, such as under shelves or cabinets, inside display cases, around door frames, or behind a TV as ambient lighting. For a more refined look, use an aluminium profile during installation. The LED strip can be cut at 100 mm intervals following the provided instructions. Available in various lengths with white light (3000 K) or cool white light (4000 K). LED 24 V 4.8 W/m. Easy plug & play installation, ready to use immediately. Plug-in transformer with on/off switch on the cable. For indoor use.
