

Led Strip Pixel RGB

24V IP20 3.3W/m 5m

LED strip light with remote control

RGB LED light strip with a stunning gradient color effect (Dreamcolor). You can easily adjust the color tones and various lighting modes using the included remote control. With these LED strips, you can create stylish lighting accents and indirect illumination to enhance your interior décor. The slim strip is easy to install even in small or narrow spaces, such as under shelves or cabinets. Attach it directly to a clean surface using the included 3M adhesive tape. For a more polished look, we recommend using aluminium profiles during installation. The Pixel strip is available in two lengths and can be cut to the desired size at 167 mm intervals. The product is designed for indoor use and includes a plug-in transformer.
