

Gaia Slim R400

Gaia Slim R400 22W/830/840 1600lm

Ceiling light

Description of product family

A modern ceiling light with adjustable colour temperature before installation, ranging between white 3000 K and cool white 4000 K. The luminaire is easy to install directly into a ceiling lamp socket or junction box using the included mounting kit. This ceiling light is a great choice for general lighting in dry indoor areas such as hallways, living rooms, bedrooms, and kitchens. This Gaia Slim model operates only via a wall switch and does not include a remote control.

Technical details

The popular Gaia Slim ceiling light is now available as a version that allows you to choose the color temperature before installation between 3000 and 4000 K. Diameter 400 mm. Easy to install directly onto a lamp socket or a terminal block using the included installation kit. Body made from polycarbonate, acrylic opal dome. IP20.
