

Saunaed H, black

Saunaed H 320 8W/827 PCO BK

A familiar product gets a new splash of color!

Description of product family

Airam's Saunaed range can be tinted to match your sauna with the Supi sauna wax from Tikkurila! The Saunaed light fixtures have been awarded the Design from Finland mark. The range consists of the vertical Saunaed V, horizontal Saunaed H, and the square shaped Saunaed Sq. The Sq and H models are now also available with black trim in addition to the traditional untreated alder. Black is a trendy, stylish, and atmospheric color for sauna interiors. A black sauna requires proper lighting. The Saunaed light is dimmable and features a warm white color temperature (2700 K).

Technical details

Horizontal Saunaed Vert with a non-replaceable, dimmable AC LED, 8 W 500 lm 2700 K. IP65. Operating temperature +5... 60 °C. The wooden shade is made from Finnish common alder with a black finish. The product carries the Design from Finland mark.
