

COB Led Strip CCT

24V IP20 12W/m 2m

Dotless LED strip

COB LED CCT strips emit a uniform light. They do not have the visible LED dots typical of LED strips, making them less glaring. The CCT strip's light tone adjusts in three steps: 3000 K – 4500 K – 6500 K. Various lighting functions and dimming can be conveniently controlled with the remote control. The CCT LED strip is available in two lengths (2 m and 3 m).
