

E27 LAMP HOLDER, CEILING CUP

Bakelite cord

With a fabric coated lamp cord and a beautiful lamp, you can add a nostalgic atmosphere to a window or highlight the decoration of a room. The decorating lamp (max. 60 W) and the bakelite E27 lamp holder can be visible - use without lampshade. The lamp plug facilitates installation and it is neatly hidden inside the plastic ceiling cup. Thanks to the 2.1 m long cord, this solution is also ideal for unusually high rooms. Shorten the cord as necessary. E27 based Decor decorating lamps are sold separately.
