

Smart Camera IP20

SMART SECURITY CAMERA IP20

Description of product family

We will extend the Airam SmartHome product family to other home security products in the near future. The camera is suitable for indoor use and equipped with a motion sensor and two-way audio. The camera includes a speaker and a microphone. The SmartHome application lets you hear sounds coming from the speakers, and you can speak into your device which allows your voice to sound through the camera speaker. Watch live footage from the camera through the Airam SmartHome app. USB power DC 5 V, SD slot (max. 128 GB) and cloud storage. Automatic night mode setting. The angle can be rotated with the Airam SmartHome app, side to side as well as up and down. Compact and light. Attach with screws or sturdy tape.
