

SmartHome Motion detector IP20

SMART MOTION SENSOR IP20

Description of product family

This smart motion detector designed for indoor use can be connected with the Airam SmartHome app to bring an added sense of safety to your home. Make the motion detector part of a comprehensive security system for your home. The app will alert you each time it detects motion in the area it is installed in. You can also use the motion detector to create automations that utilize other Airam SmartHome products. The motion detector work can be powered by batteries (2 x AAA, not included in the package) or a USB connection. Detects movement at a distance of up to six meters. Easy installation. Download the Airam SmartHome app to your phone and connect your Airam SmartHome products. An easy and reasonably priced option for introducing smart technology to your home!
